1. Introduction

QBE Insurance Group Limited (QBE) recognises that we have responsibilities not only towards our customers, employees and shareholders, but also the countries and communities in which we operate. This means understanding and managing the impact we have on society and the environment, and investing in the future of our employees and the communities we serve.

QBE seeks a balance of economic, social and environmental factors by following good international practices on environmental and social risks. Furthermore, QBE recognises and supports gender equality.

The QBE Gender Equality Bond Framework represents a further step in supporting investors to meet their objectives whilst supporting insurance clients to realise opportunities in the fast-developing social impact economy.

QBE's Gender Equality Bond Framework aligns to the four core components of the current ICMA Social Bond Principles 2018, and reflects recent guidance by the investor groups.

The QBE Gender Equality Bond Framework is not an offer of, or invitation to apply for, or a recommendation to buy securities to any person in any jurisdiction. Any offers or invitations to apply for securities will be made only in accordance with all applicable laws.

2. Framework Overview

For the purpose of issuing a Gender Equality Bond, QBE developed the following framework, which addressed the four core components of the ICMA Social Bond Principles (SBP):

- Use of Proceeds
- Process for investment evaluation and selection
- Management of Proceeds
- Reporting

3. Use of Proceeds for any QBE Gender Equality Bond

The cornerstone of a Gender Equality Bond is the use of the bond proceeds. The proceeds of any QBE Gender Equality Bond(s) will be allocated towards financing / refinancing investments in qualifying bonds. This portfolio may invest in bonds that are eligible as per the criteria defined below. In addition to defining eligibility criteria for the framework, QBE has committed that where a gender equality bond review has been evaluated and the allocation of proceeds has been determined at the time of issuance, it will disclose the specific projects funded through any bond proceeds, and the relevant eligibility criteria the funded projects will fall under, upon issuance of any QBE Gender Equality Bond.

Pending any allocation or reallocation, an amount equal to the net proceeds from the notes may be invested in cash or cash equivalents or used to repay existing borrowings under general credit facilities of QBE. These funds will be managed according to QBE's own internal liquidity management policies and may be transferred to other entities within QBE.

Eligibility Criteria

4. Process for Investment Evaluation and Selection

QBE's Investment team identifies corporate bonds that meet the company's investment risk/return criteria and makes the investment in the bond. If the investment is in a bond from a company that meets our Gender Equality Bond eligibility criteria, the Portfolio Manager, Impact and Responsible Investment (PMIRI) is notified.

The PMIRI and Credit Analysts then conduct an assessment to ensure that the bond meets the eligibility and exclusionary criteria defined in the framework and whether proceeds from the QBE Gender Equality Bond(s) can therefore refinance the investment in the corporate bond.

Each bond from an eligible company which is earmarked to support the Gender Equality Bond is presented by the PMIRI to the QBE Gender Equality Bond Committee. The QBE Gender Equality Bond Committee is also responsible for annually reviewing its eligible bond investments to ensure their suitability and eligibility for any QBE Gender Equality Bond

The QBE Gender Equality Bond Committee consists of a QBE Group Non-Executive Director, the QBE Group Treasurer, the QBE Group Head of Performance, Culture and Reward (or equivalent) and the QBE Group Chief Investment Officer.

5. Management and Tracking of the Proceeds of Issuance

QBE will track the Use of Proceeds of any Gender Equality Bond(s) via its internal information systems. Each QBE Gender Equality Bond will be booked under an earmarked position which is set up for each Gender Equality Bond specifically in the appropriate internal system. QBE will establish a register, recording each specific acquired gender equality bond ID allocated as Use of Proceeds for each Gender Equality Bond by a unique position identifier.
